

AFW38 Installation Sample

The iSpring Feed Water Adapter connects between the cold water supply Multi-Turn Angle Valve and Flexible Riser Pipe, to the main water supply, for applications in Reverse Osmosis Filtration Systems, Automatic Coffee Brewers, Ice-makers and many more. Please read these instructions carefully before installing this product, and refer to the iSpring Reverse Osmosis installation guide.

The included Conversion Adapter (bushing) can be threaded on either side of the valve to make a configuration of 3/8" x 3/8" COMP or 1/2" x 1/2" NPT.
